RECIPE FOR A TOTAL FASHION LOOK*

1. To begin the Total Fashion Look, take 1 head of hair and give it a great cut.
2. The focus of every great look is the face. To brighten it, use lipstick (stay away from frosted lipstick) and eye makeup.
3. Earrings are as much a finishing touch as your lipstick. Larger earrings can take 10 pounds off your overall appearance.
4. Wear earrings that complement the shape of your face. Don't repeat the shape of your face with the shape of your earrings (ex. Round face? Don't wear round earrings. You will look like a dinner plate with two side salads).
5. Remember the 4" Rule: If a necklace extends below a neckline, it should fall at least 4" below the neckline for a polished, balanced look. If a dress or blouse is tucked in, the necklace should be a minimum of 3" to 4" above the waistline.
6. Know what color jewelry looks best on you: Cool undertones -Silver; Warm undertones-Gold (85% of the world's population is cool and only 15% is warm).
7. Dressing in all one color (monochromatic) will help give the illusion of appearing 10-20 lbs. thinner and 3 inches taller. Each horizontal line break of color adds pounds.
8. Add a jacket. This adds vertical lines which have a slenderizing effect.
9. Toss in 1 pair of shoulder pads under every garment. Over 90% of women should be wearing them. They add 2 inches to your height and square up sloping shoulders.
10. When wearing pins, place them at the base of the shoulder pad to draw attention up to your face and away from your hips.
11. Push up your sleeves to take another 10 lbs off your overall appearance (use sleeve bands to hold them in place). This helps give the illusion of thinner hips.
12. Next, add 1 pair of hose that matches your hemline, shoes or both. This will give you additional height. Never wear hose that is darker than your shoes. It cuts off the bottom of your body and makes your feet appear larger.
13. Carefully mix all together and then complete your great fashion look by accessorizing with the appropriate jewelry. You can successfully add all 12 ingredients together, but without jewelry, you will never look finished or complete. Jewelry is your "Frosting".
14. When you serve up this "Recipe," do so with a genuine smile that comes from your heart. This will add the finishing touch that will make you and your recipe a hit with everyone.
